EDUCATION

Ed.D., Educational Technology
University of Florida
2010 – 2015

Certificate, School Administration
University of Southern California
2018 – 2020

M.Ed., Middle Childhood Education
Georgia State University
2005 – 2006

B.A., History
Georgia State University
2001 – 2005

A.A., Spanish / Bilingual Studies
Foothill College
Pre-2001

CREDENTIALS

CA — Multiple Subject Credential

CA — English Single Subject Credential

CA — Preliminary Admin Credential

GA — T-5, Middle Grades Education

PROFESSIONAL SUMMARY

Instructional designer, researcher, and educator with a doctorate in Educational Technology and over 15 years of experience spanning K-12 education, higher education, federal government, and the private sector. Currently serving as Vice President at Modellt / Discovery Collective and as an Instructional Systems Designer supporting Department of Defense programs at Eccalon LLC. Proven track record in eLearning development, curriculum design, faculty instruction, STEM education research, and AI-powered learning solutions. Seeking university-level opportunities in instructional design, educational technology research, and adjunct or tenure-track faculty positions.

EXPERIENCE

CURRENT ROLES

Vice President — 2024 – Present
Modellt / Discovery Collective
Remote

- Lead strategic initiatives for a K-12 STEM education nonprofit focused on systems thinking and computational modeling
- Oversee eLearning production, curriculum development, and educational technology integration
- Manage partnerships with universities and school districts for STEM program implementation

Instructional Systems Designer — Feb 2024 – Present
Eccalon LLC (Department of Defense)
Remote — Supporting DoD Mentor-Protege Program

- Design and develop interactive eLearning modules, portals, and training systems for DoD programs
- Apply ADDIE methodology to create Section 508-compliant instructional materials

GA — Elementary Education Certificate

SKILLS

Instructional Design
ADDIE / SAM
Curriculum Development
eLearning (Rise 360, Storyline)
LMS Administration
SCORM / xAPI
Research Methods
Educational Technology
AI in Education
Section 508 / ADA
HTML / CSS / JavaScript
Video Production
Grant Writing
K-12 Leadership
Bilingual (English/Spanish)

- Build SCORM-based training packages, dashboards, and guided interactive experiences

Director of Instructional Design & Technology

Alexandria's Design LLC

2020 – Present

Carlsbad, CA

- Lead instructional design practice for a woman-owned small business specializing in eLearning and federal training
- Pioneer AI-powered workflows in education, integrating generative AI tools into course development pipelines
- Develop proposals and training solutions for federal contracts (DoD, Navy, Army MedCOE)

HIGHER EDUCATION — ADJUNCT FACULTY

Adjunct Professor — English (ENGL 101/102, ALCR 101)

Morgan State University

Fall 2024 – Present

Baltimore, MD (Online)

- Teach English Composition I & II and Academic Literacy courses to undergraduate students at an HBCU
- Design course materials integrating educational technology and culturally responsive pedagogy

Adjunct Professor — Graduate Education

Morningside University

Jan 2016 – Present

Sioux City, IA (Online)

- Teach graduate-level education courses with focus on instructional methods and educational technology
- 10+ years of continuous online higher education teaching experience

Adjunct Professor — History (World Culture & Diversity)

Knoxville College

Current

Knoxville, TN (Online)

- Teach World Culture & Diversity course at a historically Black college

Adjunct Professor Current
Baptist University of the Americas
San Antonio, TX (Online)

Adjunct Instructor — Education Past
UC Riverside Extension
Riverside, CA

FEDERAL & INDUSTRY

eLearning Specialist
UCLA Health — Semel Institute / UCAAN
Feb 2022 – Feb 2026
Los Angeles, CA (Remote)

- Developed eLearning courses and training materials for healthcare professionals using Rise 360 and Storyline
- Created the "Becoming ACEs Aware" course series for the California Department of Health Care Services

Instructional Systems Designer Nov 2021 – 2024
US Army MedCOE / 1Prospect (Ahtna)
Fort Sam Houston, TX (Remote)

- Designed and developed ISD products for Army Medical Center of Excellence training programs
- Applied ADDIE/SAM frameworks to military medical education and e-learning solutions

eLearning Developer 2020 – 2021
Director of National Intelligence (DNI)
Washington, D.C. (Remote)

- Developed classified eLearning modules for the U.S. Intelligence Community

Curriculum Developer, K-12 2019 – 2020
Cell Collective
Lincoln, NE (Remote)

- Developed K-12 STEM curriculum using computational modeling and systems thinking tools

- Created teacher guides and student activities for biology and environmental science simulations

Curriculum Developer 2018 – 2019

Program 11 / Microsoft Education

Redmond, WA (Remote)

- Developed K-12 computer science and digital literacy curriculum for Microsoft's education initiatives

Curriculum Specialist 2017 – 2018

Age of Learning (ABCmouse)

Glendale, CA

- Designed early childhood digital curriculum and learning activities for the ABCmouse platform

K-12 EDUCATION & LEADERSHIP

Assistant Administrator 2017 – 2018

Gus Franklin Jr. High School — Adelanto, CA

- Supported school operations, teacher evaluation, and instructional leadership

K-8 Teacher (Computer Lab, Makerspace, ELA, Math, Science)

Norton Science & Language Academy — San Bernardino, CA

2016 – 2021

- Taught K-5 computer lab, 6th-8th grade English/Math/Science, and managed STEM Makerspace program

Elementary Teacher & International Educator

Fulton County, Cobb County, DeKalb County (GA) & Abu Dhabi (UAE)

2005 – 2016

- 10+ years K-8 classroom experience across multiple districts and international settings
- Taught History, ELA, Science, Math, and all elementary subjects
- International teaching and administrative experience in Abu Dhabi, UAE

RESEARCH INTERESTS

AI-powered instructional design and adaptive learning systems; computational modeling and systems thinking in K-12 STEM education; culturally responsive pedagogy in online higher education; educational technology integration in federal training environments; eLearning accessibility and Section 508 compliance.

SELECT PROJECTS & GRANTS

- **NSF STEM K-12 Grant Proposal (Co-PI)** — Developing proposal under NSF 25-545 for computational modeling in K-12 science education ($350K-$500K)
- **DoD Mentor-Protege Program eLearning Suite** — Designed and built interactive training portal, SCORM courses, and guided tours for OSBP
- **Becoming ACEs Aware (UCLA Health)** — Rise 360 eLearning course series for California DHCS healthcare professional training
- **CAAASA Video Production** — AI-powered video production pipeline for the California Association of African American Superintendents
- **Cell Collective / ModelIt K-12 Curriculum** — Systems thinking and computational modeling curriculum for middle and high school science

Dear Hiring Committee,

I am writing to express my strong interest in opportunities within your department related to instructional design, educational technology, and faculty instruction. With a Doctorate in Educational Technology from the University of Florida, over 10 years of online higher education teaching experience, and a career spanning K-12 education, federal government, and the private sector, I bring a unique combination of academic rigor and real-world instructional design expertise.

Throughout my career, I have designed and developed eLearning solutions for organizations including the Department of Defense, the Director of National Intelligence, UCLA Health, Microsoft Education, and the U.S. Army Medical Center of Excellence. I currently serve as Vice President at ModelIt / Discovery Collective, where I lead STEM education initiatives focused on computational modeling and systems thinking in K-12 settings. Simultaneously, I teach as an adjunct professor at multiple institutions, including Morgan State University, Morningside University, Knoxville College, and Baptist University of the Americas, delivering courses in English composition, graduate education, and world cultures.

I am particularly passionate about pioneering AI-powered workflows in education, a focus area I have been advancing through my work at Alexandria's Design LLC, where I direct instructional design and technology innovation for federal and commercial training projects. My research interests include adaptive learning systems, culturally responsive online pedagogy, STEM education through computational modeling, and eLearning accessibility.

I would welcome the opportunity to contribute to your institution through teaching, research collaboration, or instructional design leadership. I am confident that my interdisciplinary background and commitment to educational innovation would be a valuable addition to your team.

Sincerely,

Dr. Charles Martin Jr., Ed.D.
